CERTIFICATE FOR 'EDUROAM' WIRELESS NETWORK

Use this application to generate and receive a user certificate. You can generate a new certificate. The very access to eduroam is in the register of your accounts in the computer network center.

You can generate a new certificate for user **qqvavra2** valid for 6 months. [Click here](#) for generating.

A certificate of 11. 11. 2015 exists at the moment which you can download using this application.

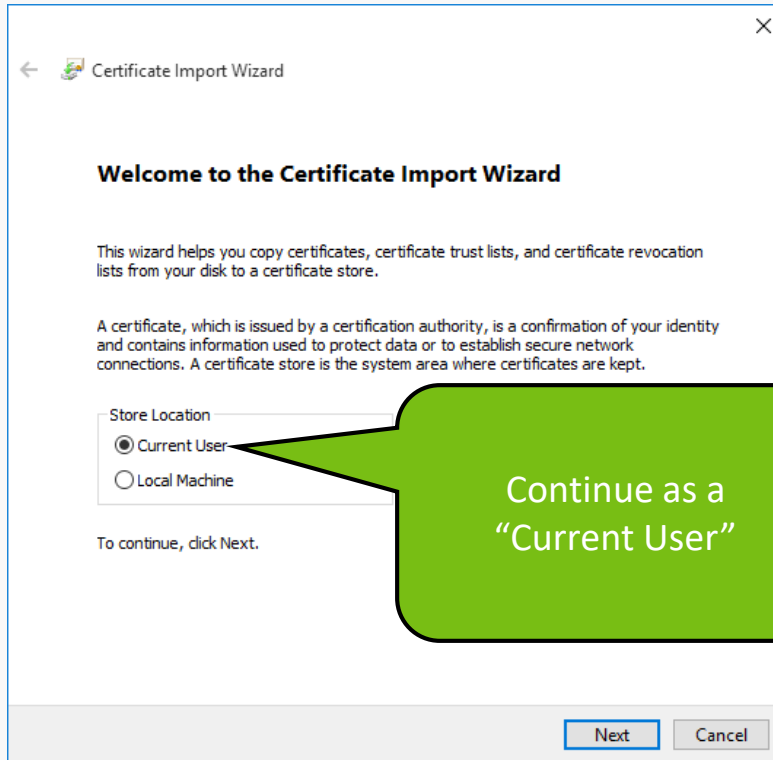

To install user certificate use the password **No6ove9**

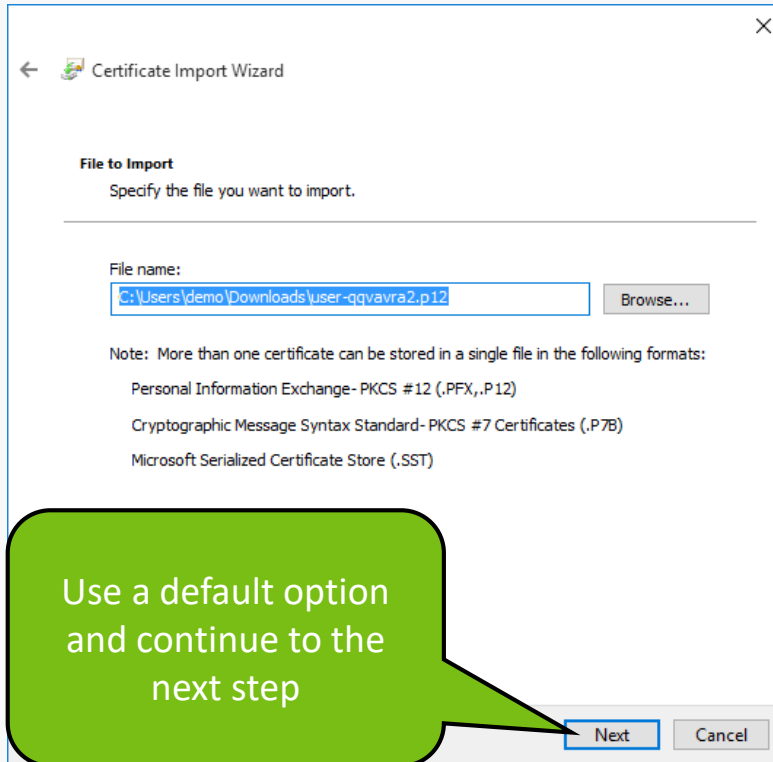

- Download basic user certificate PKCS#12 (or PFX)(application: MS Windows->WiFi)
- Download user certificate DER PKCS#12 (application: Linux->WiFi)
- Download user certificate PEM PKCS#12 (application: Linux->WiFi)
- Download user certificate PEM PKCS#7 (application: iPaq->WiFi)
- Download root certificate PKCS#12 of certificate authority (application: MS Windows->certificate verification)
- Download root certificate PKCS#12 of certificate authority (application: Linux->certificate verification)
- Download installation pack for Windows Mobile 2003

To install the wireless network to the MS Windows environment you will first need to install the root certificate D authority and then the basic user certificate PKCS#12 (PFX). To install the user certificate you need to know that Technically advanced users are free to play with other platforms and share their experience on UIS discussion certificate only once; to revalidate the user certificate, just install a new one.

 Instructions for installation and information about the wi-fi network Eduroam.

Download and open
“basic user certificate
for MS Windows”

← Certificate Import Wizard

Private key protection
To maintain security, the private key was protected with a password.

Type the password for the private key.

Password:

Display Password

Import options:

- Enable strong private key protection. You will be prompted every time the private key is used by an application if you enable this option.
- Mark this key as exportable. This will allow you to back up or transport your keys at a later time.
- Include all extended properties.

Next Cancel

To install user certificate, you must enter installation password

← Certificate Import Wizard

Certificate Store
Certificate stores are system areas where certificates are stored.

Windows can automatically select a certificate store for you when you import the certificate.

Automatically select the certificate store based on the type of certificate

Place all certificates in the following store

Certificate store:

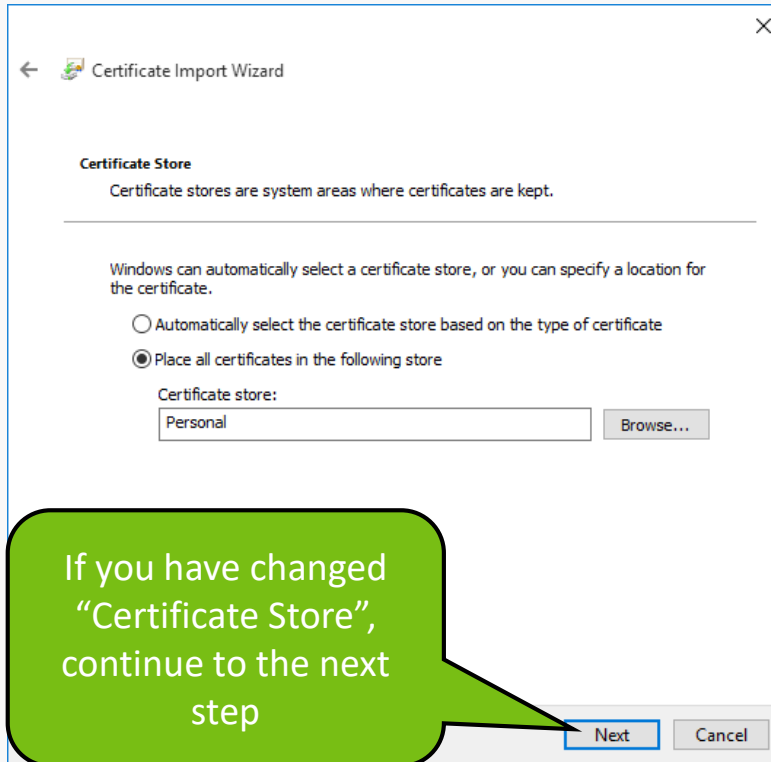

Select Certificate Store [X]

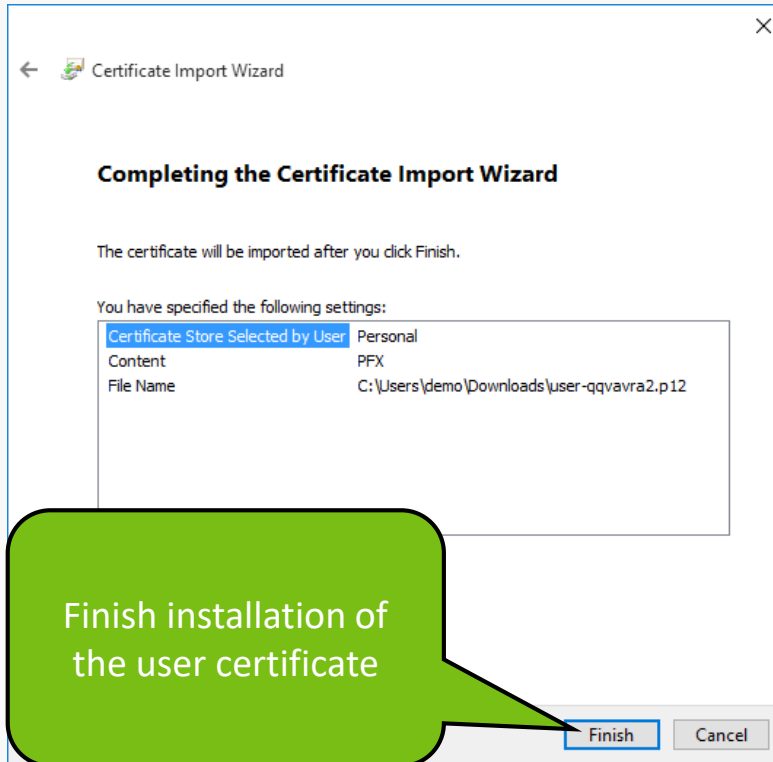

Select the certificate store you want to use.

- Personal
- Trusted Root Certification Authorities
- Enterprise Trust
- Intermediate Certification Authorities
- Trusted Publishers
- Untrusted Certificates

Show physical stores

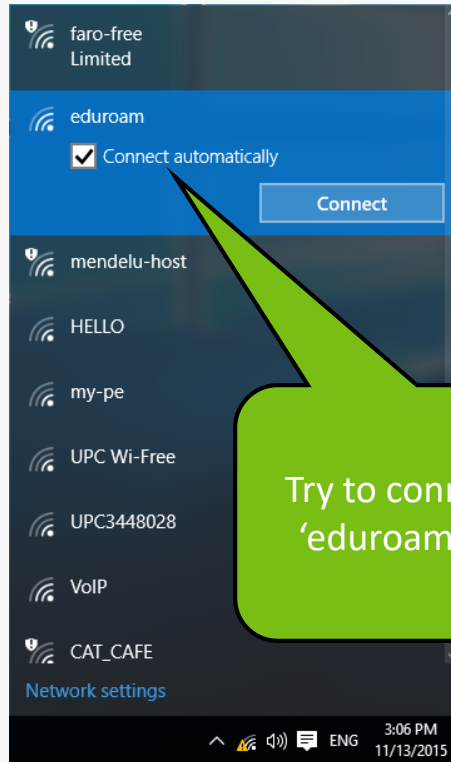

Place the certificate to the "Personal" store

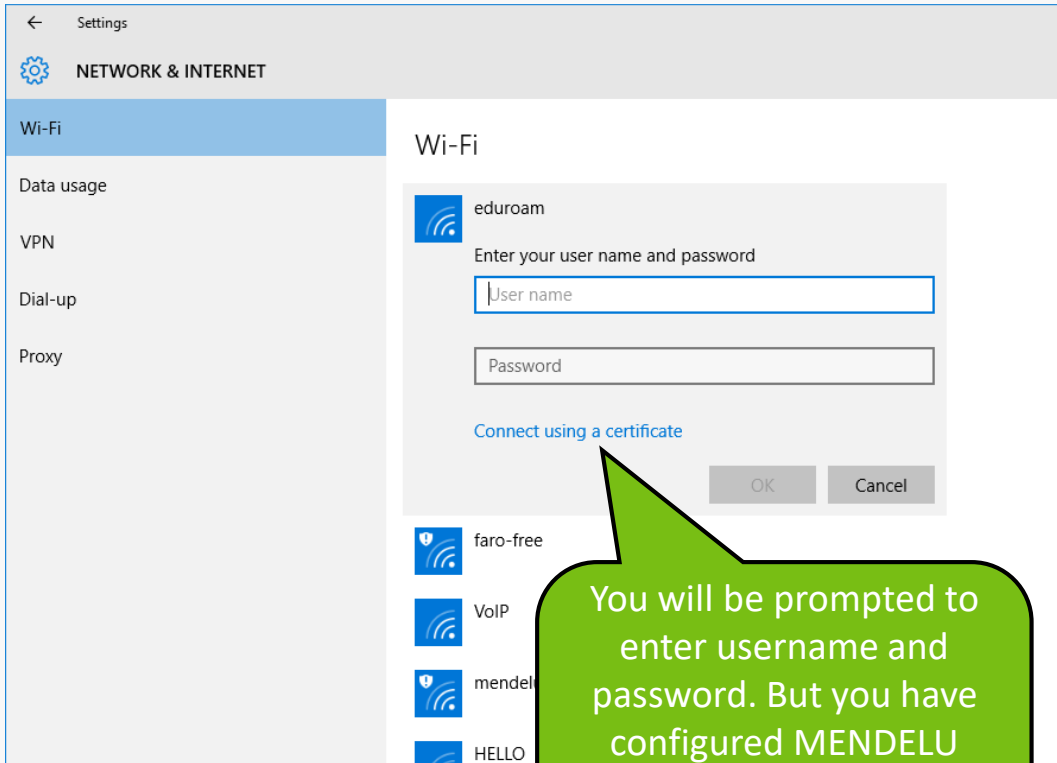

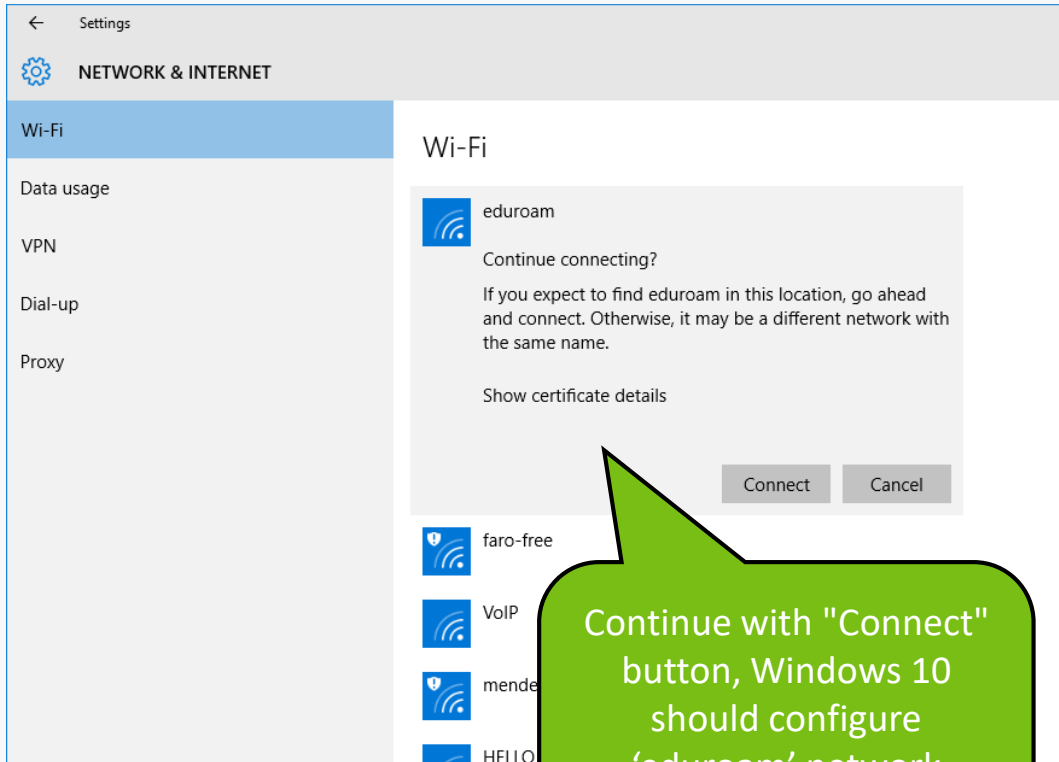

The user certificate was successfully imported. Now we can configure 'eduroam' Wi-Fi network

Try to connect to the 'eduroam' network

You will be prompted to enter username and password. But you have configured MENDELU certificates, so instead, click on the "Connect using a certificate" option

Continue with "Connect" button, Windows 10 should configure 'eduroam' network automatically without any interaction

The image shows a screenshot of the Windows Settings application, specifically the 'NETWORK & INTERNET' section. The 'Wi-Fi' tab is selected, showing a list of available networks. The 'eduroam' network is currently connected. A green callout box with a black border points to the 'eduroam' network in the list. The callout box contains the text: 'You should be connected without any problems. If so, try to install the latest updates'. The background shows the 'NETWORK & INTERNET' settings page with a sidebar on the left containing options like 'Wi-Fi', 'Data usage', 'VPN', 'Dial-up', and 'Proxy'. The right pane shows the 'Wi-Fi' settings with a list of networks: 'eduroam Connected', 'faro-free', 'VoIP', 'mendelu-host', 'my-pe', 'UPC Wi-Free', 'UPC3448028', and 'CAT_CAFE'. At the bottom, the system tray shows the time as 3:08 PM on 11/13/2015.
